

問 6 次の英文は、高校生のカズヤ（Kazuya）が英語の授業で行った発表の原稿です。英文を読んで、あとの(ア)～(ウ)の問いに答えなさい。

Hello, everyone. I'm Kazuya. What do you like to do when you have time? I like to play video games.

Last month, I bought a video game. When I first played it, I was really excited because I \*felt \*as if I \*got into the world of the game. ( ① ) A new \*technology is used for the game. The technology is called VR.

Do you know about VR? Have you ever played VR games? I asked all of my classmates these questions. \*Graph shows the answers.

Graph

From Graph, we can see that .

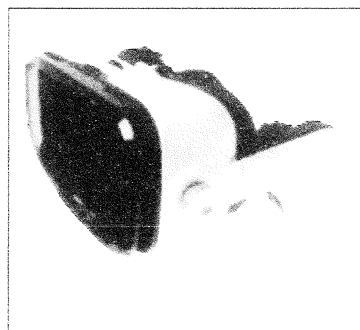

VR means \*virtual \*reality and the technology shows us the world of virtual reality. We can see the world of it with a special \*goggle like Picture. We can \*experience a lot of things in the virtual world. When we \*move, the world also moves, so we can feel as if we are in the \*real world.

I got interested in VR and \*looked it up on the Internet. I learned some interesting things. I thought the technology of VR was used only in video games and movies, but it is also used in many other things.

For example, there is a VR travel. We can visit a lot of places in the virtual world. We can travel even in \*space and the \*deep sea. ( ② ) So I want to travel there even in the virtual world.

Here is an interesting example. VR for \*fire drill \*is developed, and some cities \*adopt it as their fire drill. VR shows us a virtual \*fire scene, and we have to \*escape from the fire scene and \*extinguish the fire. I think this fire drill is more useful than a \*familiar one. I hope our school will adopt it in the future.

Picture

VR has great "possibilities and it'll be important in our lives. ( ③ ) Thank you for listening.
