(4) ウ (5) イ

(6) A群 エ B群 ア

Hello, everyone. Last week, we asked you the question, "Where do you want to have your work experience?" I'm going to talk about the answers. The most popular place is a restaurant. More than 50 students want to work there. Next, 45 students want to work at a coffee shop. How about other places? 35 students want to work at a cake shop. A hospital and a bookstore are popular, too. 20 students want to work at a hospital, and the same number of the students want to work at a bookstore. In the future, you will get a job. I think you can learn a lot of important things about working through the work experience. Your work experience will start on June 10th, and you are going to work there for five days. On the fifth day, please come to school after your work experience.
