問題(ウ)

Good morning. I'm Hiroko. Today I'm going to talk about holidays. I asked forty students in my class, "What do you like to do on holidays?" Watching TV or DVDs is the most popular, and nine students answered playing sports. Some students like listening to music and two more students than them like playing video games. Four students said they liked to go out to buy something, for example, clothes, bags and books. Actually, I am one of them. I often enjoy buying something or just looking around shops with my mother. It's a lot of fun.
