問題(ウ)

Good morning. I'm Mana. Look at this table. Our city does many kinds of volunteer activities, and some activities need our help. For these four activities, 50 students are needed now. I like children, so I wanted to join "Let's play with children in Hiyoko Nursery!" But I can't join it, because I have tennis practice on that day. So I am going to join "Let's read books to children in the City Library!" a week later. That will be on November 14. Some of you may think, "I have never joined such activities," but don't worry about that. Some adult volunteers will tell you about the activity. Which activity are you interested in? Let's do these activities!
