Article

Aoba City has been trying many things to protect the *environment. Aoba City Bike is one of them. It's a kind of bike *rental service. You can *rent and *return a bike at *any *cycle port in the city.

I tried Aoba City Bike last weekend. On Saturday, at three in the afternoon, I rented a bike at a cycle port at Chuo Station and went to my grandfather's house by Sakura Park. I stayed there that night. The next morning, I left his house, and went to Asahi *Sports Ground to practice soccer. After practicing, before eleven, I returned the bike there and walked home.

Going to these places by bike took more time than going by bus, but I enjoyed *riding. Bike rental services are good for the environment and our *health. Aoba City Bike started last month, and there are five cycle ports now. But there will be more in the future. I hope you will also try it.
